CORPORATE PROFILE

Preface

We are growing to meet the changing needs of the Power Transmission & Distribution, Solar Panel Structure Railway Electrification and Telecommunication industry.

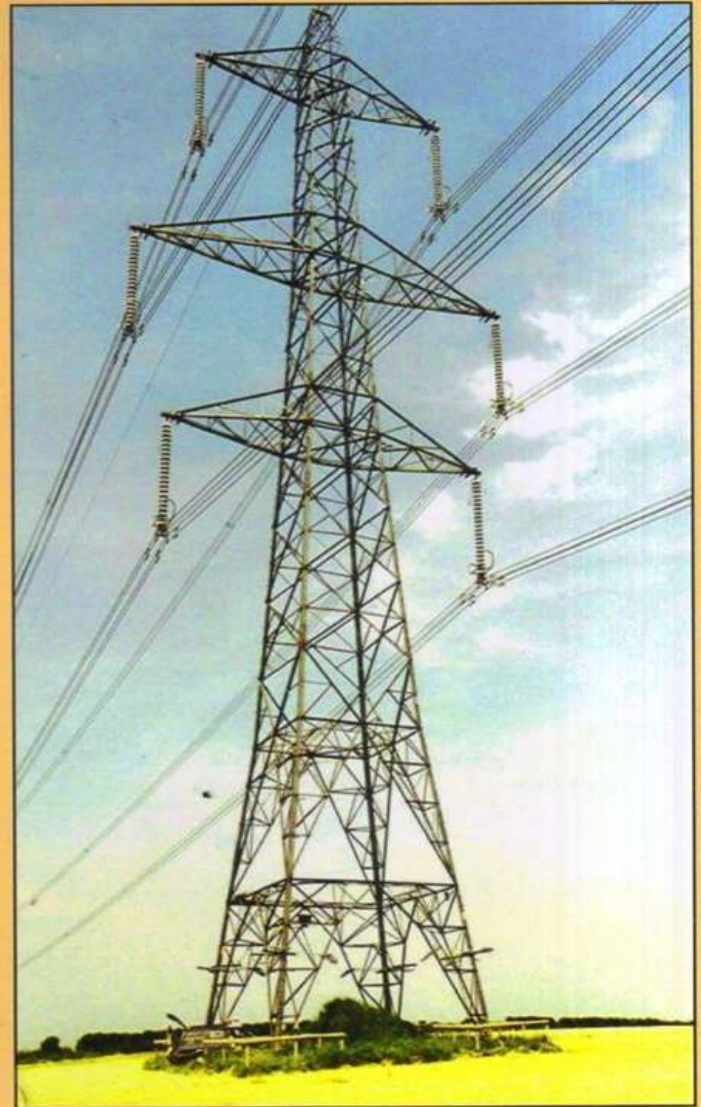

Our team has a broad range of experience in India. We have provided our team with the best of resources, tools and information to get the job done. By doing this, We are able to guarantee our work and provide high quality job at competitive prices.

We provide a range of towers, support structures, substation structures, lattice frames and trusses for effective high voltage overhead transmission lines.

All towers are custom made as per the requirement of the customer. We supply transmission towers up to 765KV.

State-of-the-art infrastructure, the latest machines and well-trained manpower ensure repeated accuracy in the production of all components, thus eliminating mismatches at site.

A Vigilant quality control cell ensures that every product is tested to confirm to highest standards in our in-house laboratory. It is this desire to achieve even higher quality standards and greater customer satisfaction that is deriving Global Smelter Ltd. as fast paced contender in the market place.

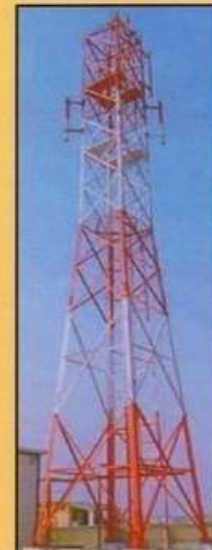

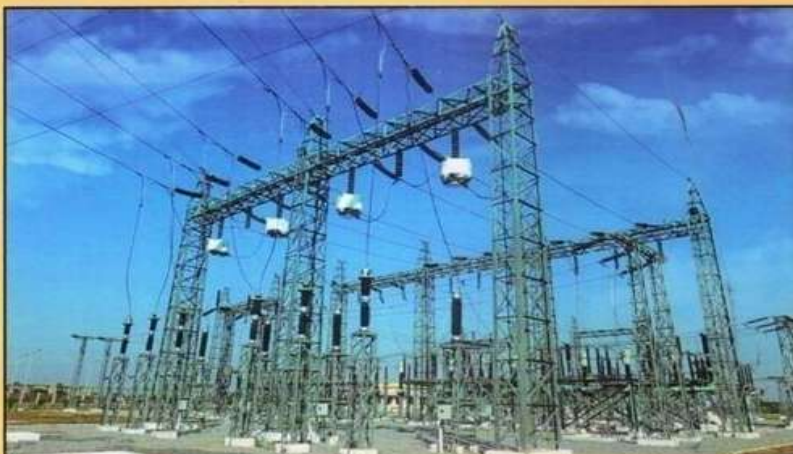

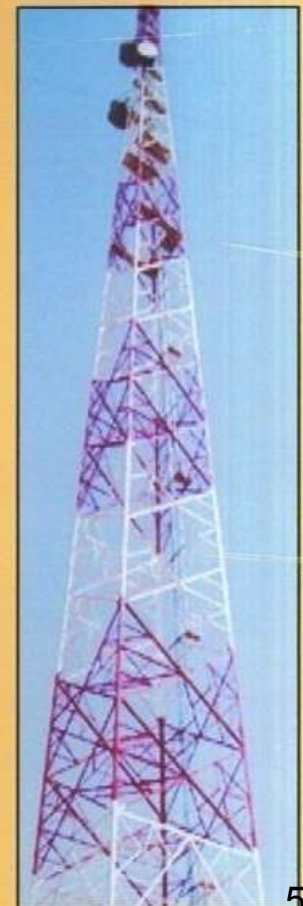

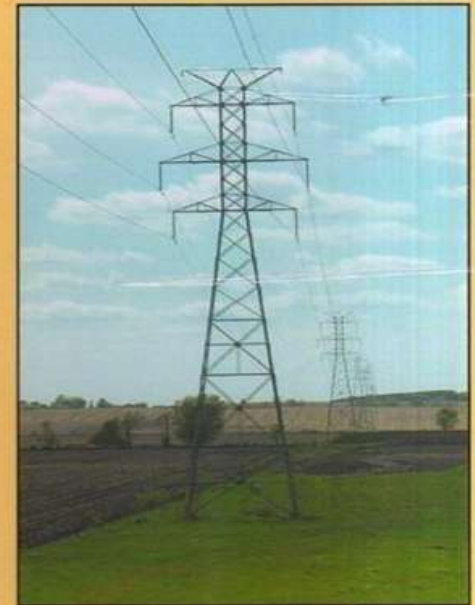

Work Unit

Global Smelter Limited works are located in industrial belt of UNNAO (40 Km. from Lucknow Airport & 30 Km. from Kanpur on Kanpur-Lucknow Highway). Excellent connectivity by rail and road to all centers of the country makes the company logistically ideal for speedy transportation and shipment point of view.

Products

Global Smelter Limited offers a wide range of Galvanised Steel Structures. Some of our products are :

- ▲ Transmission Line Towers
- ▲ Substation Structures
- ▲ Solar Panel Structure
- ▲ Railway Electrification Structures
- ▲ Ground base and Roof top Telecommunication Towers
- ▲ TV Radar Towers
- ▲ Broadcast Towers
- ▲ Masts for lighting
- ▲ Other type of Lattice Steel Structures

Manufacturing Facilities

Global Smelter Limited. has started well equipped with High Class machineries and infrastructure facilities in all Tower and HDG structure Manufacturing. We also have outstanding technical expertise and production strength which leads to faster and reliable solutions i.e.

- ▲ Our 7 meter Long Galvanization tank enables us to complete 7 meter long job in a single go resulting smooth and uniform Zink coating.
- ▲ Our PLC Controlled combustion provides stable and desired temp of molten zinc which results in better control on thickness of coating zinc.
- ▲ Our Standby systems for all equipments like EOT Crane, Combustion Equipment and Fabrication Machineries that avoids any delay in processing of our customer's order.
- ▲ Our well Equipped Fabrication Shop is capable to fabricate 25,000 MT structure per annum with the help of mechanical and hydraulic press machines, shearing machines and MIG/PUG/ARC welding machines etc.
- ▲ 24 Hrs. working to execute the orders well in Time.
- ▲ Highly Sophisticated Lab and Design Department with all latest testing and designing equipments.
